## ANNOUNCEMENTS

Following is the charge for announcing candidates for various offices. The fee must be paid in advance in all cases:

District Office	\$ 5.00
County Office	10.00
Legislative Office	15.00
Congress	20.00

## REPUBLICAN NOMINEES

Sheriff, GEORGE W. WALKER  
Trustee, THOS. F. BROWN  
Assessor, THOS. J. KERLEY

## FOR SHERIFF

HENRY—We are authorized to announce the name of J. H. HENRY as a candidate for sheriff, subject to the action of the voters express at the ballot box in August.

## FOR CONGRESS

HULL—We are authorized to announce HON. CORDELL HULL as a candidate for the democratic nomination for congress from the Fourth District, subject to the action of the democratic primary election to be held the First Thursday in August.

## Canaries Betrayed Burglars.

While on patrol on Henry street one night recently a canary bird flitted by Patrolman Killea, followed by another. Above him half a dozen more were flying about.

Killea investigated and found that the exodus of canaries was from a bird store. Inside, in the semi-darkness, he saw five men moving about, whom he arrested. They were locked up on charges of burglary.

Louis Pollza, who owns the bird store, said about seventy-five or a hundred of his canaries had been freed. He estimated his loss at \$200.—New York Mail.

## Rice Long Cultivated.

Rice is generally considered a native of China, probably due to the fact that Emperor Chin-Nong, who ruled 2800 years before Christ, established a ceremonial ordinance which prescribed that the emperor should sow the rice himself, while four other kinds of seed may be sown by princes of his family.

## And in America—

Man hissing means delight and usually signifies astonishment; in the New Hebrides it is signified by anything beautiful. With the Danutos it is a sign of cordial agreement.

## It Helps!

There can be no doubt as to the merit of Cardui, the woman's tonic, in the treatment of many troubles peculiar to women. The thousands of women who have been helped by Cardui in the past 40 years, is conclusive proof that it is a good medicine for women who suffer. It should help you, too.

## Take

**CARDUI**

## The Woman's Tonic

Mrs. N. E. Varner, of Hixson, Tenn., writes: "I was passing through the ... My back and sides were terrible, and my suffering indescribable. I can't tell just how and where I hurt, about all over, I think ... I began Cardui, and my pains grew less and less, until I was cured. I am remarkably strong for a woman 64 years of age. I do all my housework." Try Cardui, today. E-76

# THORNHILL WAGONS

**YOU** make no mistake when you buy the Thornhill. Made of tough highland oak and hickory. It has twice the strength of wood that grows under softer conditions. "The Thornhill is not the lowest priced, but the best and in the end the cheapest." Let us show you the wagon that is almost wear-proof.

**BILBREY BROTHERS  
HARDWARE COMPANY**

## BIBLE FOR CHINA

New Translation Has Been the Work of Many Years.

Said to Be the First Ever Put into the National Language of the Race, and Almost Perfect Literary Production.

After continuous labor extending over more than a quarter of a century by Chinese and foreign scholars, the announcement is made a new translation of the Bible has been completed for the Chinese people. The publication of this translation at an early date, under the title of the "Revised Mandarin Bible," is announced by the American Bible society. The completion of the work will, it is stated, place this particular version in the hands of more individuals than were ever reached by any other translation. There have been Bibles in China for many years, of course, millions of them, but the forthcoming issue will be the first translated into the national language of the Chinese, and it is claimed that it will be the most nearly perfect literary production in the Chinese republic.

It will be interesting to many observers the world over to take careful note in the years to come of the effect of this translation upon the masses of the people of China. From the point of view of the western world, China is not rich in literature. This estimate is not disputed by many of the Chinese educated in America, and European colleges. Confucius, when he edited what the Chinese denominate the sacred canons, in the sixth century before the Christian era, prescribed the model of Chinese literary form, and reached, in the belief of his followers, the pinnacle of philosophic wisdom. These classics, including the works edited and actually written by those who called themselves his disciples, possibly excel, in literary merit at least, the works of any other ancient civilization, and it is true that no other written words have for so many centuries molded the character, culture, morals and government of so great a nation. The veneration given throughout the centuries to the wisdom of Confucius has, because of the constant study of his philosophy, preserved the language al-

most unchanged for thirty centuries, and set a permanent standard in the nation's literature. In one of the books of this great series, that known as the "Analects" of Confucius, in which his views and maxims are retailed by his disciples, there are given what purport to be accounts of the habits and records of the teachings of the great Chinese moralist. In it there is found the sage's text on altruism, called the golden rule in its Chinese form, which, translated, reads: "What you would not others should do unto you, do not unto them."—Christian Science Monitor.

## The Longest Tunnel.

The longest and largest tunnel in the world will probably soon be built under the Hudson river to connect New York with New Jersey. There are several tunnels large enough for a railroad train but the new tube under the river is to be large enough to allow two or three large teams or automobiles to run abreast. The tunnel will be much more than a mile in length and thirty feet or more in diameter. It is estimated that 3,000 vehicles can pass in both directions every hour in such a tunnel, which is more than twice as many as pass up and down Fifth avenue, probably the busiest street today in the world. The great problem of the tunnel is to provide ventilation, since the tube will be 3,800 feet long between the ventilating shafts. Fresh air will be forced in and the bad air allowed to escape by an elaborate system of pipes.—Boys' Life.

## Romance of Cotton.

The report that cotton has been discovered growing wild, in what was believed to be an Australian desert, opens vast possibilities of new fortunes. The history of cotton is strewn with El Dorados—except for some of those inventors whose ingenious machines of the eighteenth century have made riches for modern Lancashire. Arkwright is the most conspicuous instance of reward following merit. Most of them, like Hargraves, died in poverty. It is only in our own times that vast fluctuations in the price of cotton have taken place, and that, of course, is due to the amazing ingenuity of the men who made the human-like machines that now do the work of a thousand men. When machinery was first applied in Britain one of these more fortunate inventors boasted that he had reduced the price of a specially fine kind of cotton from \$100

to \$4 for a quantity sufficient to make a lady's dress. We need him now.

## Utopia.

Gibraltar seems to fulfill all the conditions of a "desirable residence" for war-impoorished people. There are no taxes, except on alcoholic liquors and tobacco, and the revenue, mainly derived from customs and port dues, shows a handsome balance on the right side. The colony has no public debt, and the prosperity of its inhabitants is shown by the savings bank deposits, which doubled in a year, and at the end of 1918 gave an average of \$250 for each depositor. At present the British civil population numbers about 10,000. There is room for a few more on "the Rock" because the census of 1911 enumerated nearly 17,000 besides Maltese and aliens, who have also diminished since then.

## Coal of Africa.

Wherever there is coal in the earth it is more and more becoming man's urgent business to know if, whatever be the theoretical resources of such vast and unworked fields as may exist in China. So Africa has been under study and when international geologists in 1913 were reviewing the coal reserves of the world it was found that Africa as far as they could make out had less coal than any other continent, the total estimated reserve being 57,839,000 tons, and the Union of South Africa, that is the federated British colonies, contain 97 per cent of this reserve.

## Wild Herds Increase.

In the ten years since the Montana national bison range was established the 27 buffaloes with which the herd was started have increased to 290. In addition there are on the range 125 elk (not including calves of last year), 33 antelope and 13 mule deer. It is believed that the range is large enough to support 800 bison, 400 antelope, 500 deer and 800 elk.

**French Brides for Portuguese Soldiers.**  
About 700 Portuguese officers and soldiers in France during the war married French girls.

## To Irrigate Egypt.

A project for obtaining control of the waters of the Upper Nile is being seriously contemplated. The work will extend over a generation, and involve the expenditure of tens of millions of dollars, affecting the entire future of irrigation throughout the

Nile basin. A commission has already been formed and consists of three members; an irrigation engineer, nominated by the government of India, as president, and a British physicist, nominated by the University of Cambridge, and an irrigation engineer, nominated by the government of the United States, constitutes the third member.

## Jimmy's Role.

Billy's mother heard a great commotion in the yard when he was playing with some other boys. Looking out, she saw him chasing one of his playmates around the yard, who was making an outcry at every jump. "Why, Billy," she called, "whatever are you doing?" "Oh, I'm running a blind pig and Jimmy's playing he's the pig," was the breathless reply.

## Chance to Experiment.

"Our girl is anxious to get into the whirl."

"Then let her come down to our office building and try the entrance revolving door when a crowd of messenger boys are going through."

## Very Cheering.

"The man who never makes a mistake never makes anything." The chap who originated this remark was a friend to humanity.—Louisville Courier-Journal.

## The Idea.

"The baker of the show complained that his cake was dough."

"I suppose the star gave him to understand that is what angel cake generally turns out to be."

## PLEASANT HILL

Principal Wharton, who returned last Tuesday from a week's business in Nashville, left Tuesday for Knoxville, accompanied by Benton Cantrell.

Alton Snipes returned Saturday and has joined the work squad which is "carrying on" for the Academy this summer.

The little Beam children, who have been seriously ill, are quite well again.

Mrs. Newton's sister and children from Georgia, arrived Sunday for a stay of several weeks.

Children's Day will be celebrated next Sunday.

Miss Winifred Smith left last Thursday for a visit with her sister, Mrs. Wright in Knoxville.

New material has begun to come in and good sales are looked for from now on, each Tuesday and Friday afternoon.

The fact that the Methodists are wishing to establish a school in Cumberland county and in this vicinity is surprising to Pleasant Hill. In these days of inter-church effort it seems natural and most right to avoid duplication of work, and so long as Pleasant Hill is deeply rooted not only here on the plateau, but in the hearts of the men and women, the boys and girls throughout the county, it would seem the part of wisdom and fair play to have the field for the Academy, and locate in some uncovered section.

June 2. E. L. H.

## BIGLICK

Sunday School is progressing nicely with T. S. Randolph as Superintendent.

Several from here attended the Children's Day exercises at Linary Sunday.

Mrs. Alta Turner is visiting her father, J. B. Cobble, here.

The Ladies' Aid Society gave a cake and coffee supper recently which brought in \$16.50, which will go to help build the new school house.

Mr. and Mrs. George Lowe were visiting here Sunday.

Sunday, June 27, there will be Children's Day exercises at Oak Grove. Everybody invited to attend.

John Kerley, who has been at Hot Springs, Ark., is reported better and is expected home this week.

June 19 Snokball.

## POMONA

Howard Hill entertained about 30 of his friends at a birthday party June 5. All present report a most delightful time.

Mrs. Pauline Clark and son, Maxwell, who recently returned to Crossville from Twin Falls, Idaho, were the week-end guests last week at the Barnes home.

Everett Slagle, of Chattanooga, came over Saturday to visit his family, who are spending the summer here.

Everyone here is greatly pleased over the acquisition of the Meadow Creek Falls property by the Y. M. C. A. The writer had often wondered why the Falls did not attract more attention; for there are many places within half the natural beauty possessed by the Falls, that have become renowned the country over.

June 19. O. B.
